01 – INTRODUCTION

$SANS - Revolutionizing Memes & Crypto Landscape

$SANS A memecoin poised to revolutionize the memes & crypto landscape. While various animal-inspired coins have had their moments, it's time for a Skeleton to steal the spotlight.

Sans – an Ethereum memecoin inspired by the famous meme Sans, an iconic character from the popular game Undertale, created by the legendary Toby Fox.

Join us on this memetic journey as we introduce groundbreaking concepts such as Meme Gamification, Twitter Meme Bot, Meme Portal, Meme Markets, Engaging Contests, and more. Together, we will propel the meme industry forward, empowering creators, fostering collaboration, and harnessing the true potential of memes for positive change.

Get ready to witness the rise of Sans and the revolution of memes and crypto. The stage is set, and the spotlight is on $SANS. Let's make history together!

SANS - THE
SKELETON'S STORY   02

02 — SANS - THE SKELETON'S STORY

Sans is a powerful and enigmatic skeleton with a heart full of justice. He possesses supernatural abilities that make him nearly invincible, yet he refuses to use his powers for violence. Instead, Sans has made a vow to never kill a human, choosing to help them fight against evil forces. He is a jester at heart, always seeking to make people laugh and forget their troubles. But beneath his jovial exterior, there is a deep sadness that he keeps hidden from the world.

Sans longs for the peace of death, yet he is bound to live by an unknown purpose. He wanders the world like a ghost, searching for a reason to keep living, to keep fighting. And though his journey is fraught with danger, Sans never loses hope that he will one day find his true purpose and find peace at last.

Sans is not just a character within a game; he has become a phenomenon that transcends digital realms. His unique personality and iconic lines have given birth to the Sans meme, spreading laughter and joy across the internet.

✝️🖐️💧🖐️🏁☠️

VISION   03

03 — VISION

At Sans, our mission is to revolutionize the meme industry and drive its growth. Unlike other memecoin projects with large market caps, we're not just building communities and products for ourselves, but for the entire meme industry. We question what they're truly doing to advance the meme landscape.

Sans is not just another memecoin riding the hype. We're here to make a meaningful impact on the meme industry as a whole. Through groundbreaking concepts such as Meme Gamification, Meme Portal, Meme Markets, Engaging Contests, and more, we aim to propel the meme industry forward.

We're dedicated to empowering creators, fostering a culture of collaboration, and harnessing the power of memes for positive change. Together, let's make a difference in the world of memes, one meme at a time.

👉👍🏳💧✡💧❄👉💣

04 – ECOSYSTEM

The $SANS ecosystem consists of a diverse range of products and services aimed at transforming the memes and crypto landscape. While we are excited to introduce these innovative offerings, we understand the importance of safeguarding our unique ideas in this competitive market. Therefore, we will provide a brief overview of our products without divulging specific details:

- Twitter Meme Bot
- Meme Portal
- Meme News
- Cards
- Meme Contests
- Meme Gamification
- $SANS DAO
- Education and Workshops
- Meme Markets
- Tools
- Content Marketplace
- Voting System
- AI
- Organization
- Charity
- Staking & Farming

These products encompass a wide range of functionalities and interactive experiences, tailored to engage our community and enhance the meme and crypto ecosystem. As we continue to develop and refine these offerings, we will strive to provide a unique and exciting experience for our users.

REVENUE
DISTRIBUTION   05

05 - REVENUE DISTRIBUTION

At $SANS, we believe in a fair and transparent approach to revenue distribution. Our aim is to ensure that all stakeholders, including the community, team, and charitable causes, benefit from the success of the project. Here's how the revenue will be allocated:

70% of the revenue generated from the $SANS ecosystem will be directed towards the buy-back and burn pool. This mechanism helps maintain a deflationary supply and increases the value of $SANS tokens over time.

The remaining 30% of the revenue will be allocated to the development and enhancement of the ecosystem. This includes funding ongoing research, product development, marketing efforts, and ecosystem expansion.

By implementing this revenue distribution model, we aim to strike a balance between ensuring the sustainability and growth of the project, while also rewarding our community and supporting charitable endeavors.
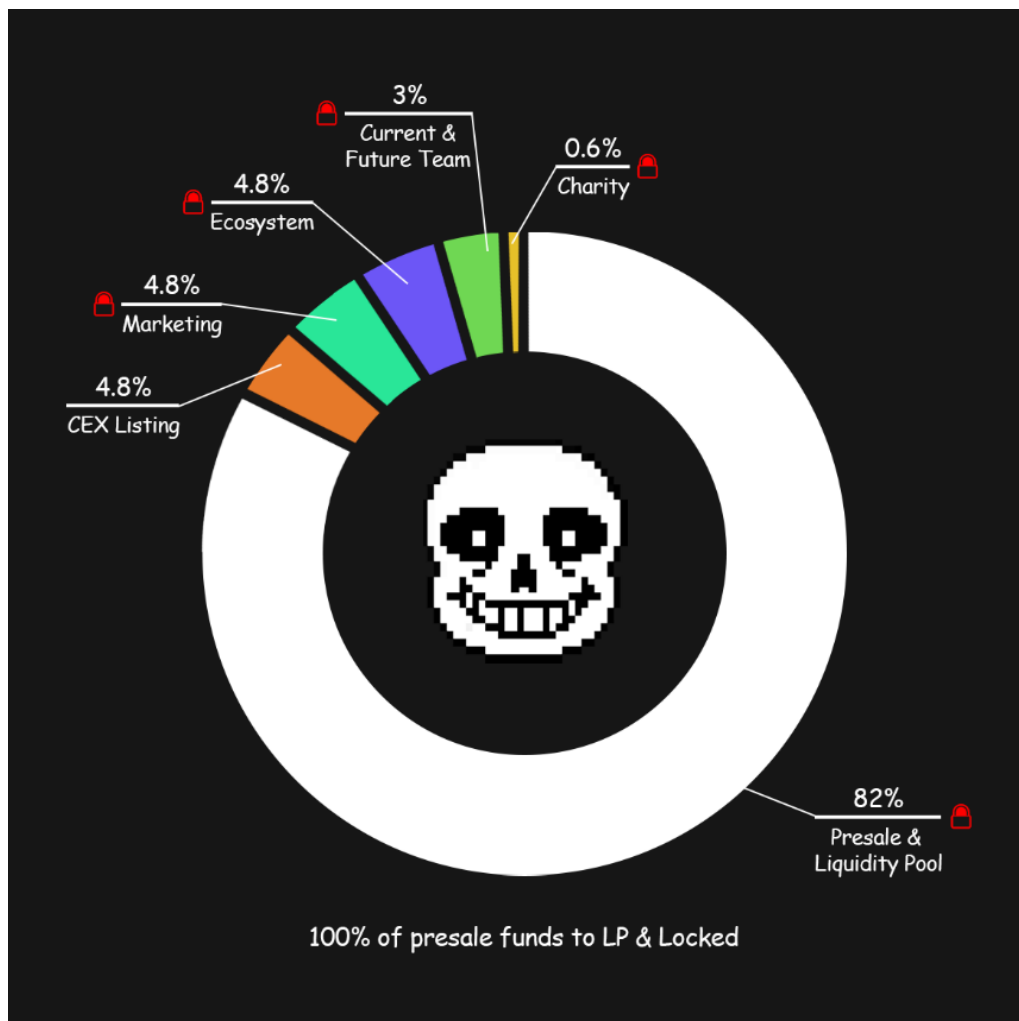

TOKENOMICS

The tokenomics of $SANS are designed to ensure a fair distribution of tokens and provide various benefits to different stakeholders, including the community, team, marketing efforts, and charitable causes.

All the funds are trackable, and we will share the details of all the vesting wallets & multi-sig CEX funds wallet before launch, providing transparency and accountability to investors and the community.

Presale & LP - 72,160,000,000 tokens: 82% of the total supply allocated to the community, split into two parts and 100% of presale funds to LP.

Presale: 42.1% of the total supply is allocated to the presale. Participants can purchase a min of 0.015 ETH and a max of 0.15 ETH worth of $SANS tokens per person, ensuring a fair distribution and preventing large holdings.

LP: 39.9% of the total supply is allocated to the liquidity pool, providing sufficient project liquidity. LP tokens are locked for 10 years, instilling investor confidence and ensuring long-term stability.

CEX Listing - 4.8% of the total supply (4,224,000,000 tokens) is allocated for listing on central exchanges (CEX). This allocation is split into three tiers – CEX tier 1, tier 2, and tier 3, ensuring wider accessibility and increased liquidity.

Marketing - 4.8% of the total supply (4,224,000,000 tokens) is reserved for marketing efforts. These tokens are locked and vested monthly for 1 year, ensuring responsible use of funds and a steady stream of marketing initiatives.

Ecosystem - 4.8% of the total supply (4,224,000,000 tokens) is allocated to nurturing and expanding the Sans ecosystem. These tokens fuel the development and operation of essential features, such as staking, meme portal, rewards, and meme markets. They are locked and vested monthly for 6 months, ensuring a sustainable approach to ecosystem growth.

06 — TOKENOMICS

Current & Future Team - 3% of the total supply (2,640,000,000 tokens) is allocated to the current and future team members. These tokens are subject to monthly vesting for 2 years, demonstrating the team's long-term commitment to the project's success.

Charity - 0.6% of the total supply (528,000,000 tokens) is allocated for charitable purposes. These tokens are locked for 1 year and dedicated to supporting NGOs, hospitals, and other worthy causes, enabling $SANS to give back to society.

07 – PINKSALE FAIR LAUNCH

PinkSale Fair Launch is an important milestone for the $SANS project, ensuring a fair and transparent distribution of tokens to the community. We believe in equal opportunities for all participants, and the PinkSale platform aligns with our values.

Key features of the PinkSale Fair Launch:

- Max 0.35 ETH Buy Limit per participant during the presale, promoting equal participation.
- Liquidity will be locked for 15 years, ensuring stability.
- 100% of presale funds allocated to the liquidity pool (LP) for strong project foundation.

Through the PinkSale Fair Launch, we aim to establish a solid foundation for the $SANS project, ensuring a level playing field for all participants and fostering trust within the community.

💧💣✌☀❄ 👍🏳☠❄☀✌👍❄

SMART CONTRACT 08

08 – SMART CONTRACT

The $SANS smart contract is a highly optimized and gas-efficient, adhering to the ERC20 standard. Our smart contract has undergone a thorough auditing process by reputable third-party security experts to ensure its security and reliability.

Key features of the $SANS smart contract:

- 0% Buy/Sell Tax: No transaction fees for seamless trading.
- 0% Transfer Tax: Swift and cost-effective token transfers.
- Renounced Contract: Transparency and removal of centralized control.
- Audited Contract: Thoroughly audited for code integrity and investor confidence.

By implementing these measures, we aim to create a secure and reliable ecosystem for $SANS.

TEAM & TEAM STRUCTURE

09 - TEAM & TEAM STRUCTURE

At $SANS, we believe in the power of collective collaboration and expertise. Our team consists of passionate individuals from various backgrounds, each bringing their unique skills and knowledge to drive the project's success. While individual identities remain anonymous, we assure you that our team comprises experienced professionals with a deep understanding of the crypto and meme industries.

In the initial stages of the project, we have planned a team structure that encompasses key roles and responsibilities. This includes founders/developers, marketing members, community managers, social media handlers, content writers, creative designers, advisors, listing experts, moderators, and more. Each member plays a vital role in shaping and executing the vision of $SANS.

Together, we are dedicated to creating an inclusive and vibrant community where creativity and innovation flourish. We believe that by leveraging our collective expertise and diverse skill sets, we can achieve remarkable milestones and drive the meme industry forward.

COMMUNITY & PARTNERSHIP

10 - COMMUNITY & PARTNERSHIP

At $SANS, we understand the significance of community engagement and the power of strategic partnerships. We believe that building a strong and supportive community is essential for the success of any project. Our community members are at the heart of what we do, and we are committed to fostering an environment that encourages participation, collaboration, and the sharing of ideas.

We encourage everyone to join our growing community and be part of the memetic journey. By becoming a member, you will have the opportunity to connect with like-minded individuals, engage in discussions, and contribute to the development and growth of $SANS.

Partnerships are also a vital aspect of our roadmap. We are actively seeking collaborations with other projects, influencers, and organizations that share our vision and values. Through strategic partnerships, we aim to expand our reach, access new markets, and explore innovative opportunities that further enhance the $SANS ecosystem.

By combining the collective power of our community and forging strategic alliances, we can amplify the impact of $SANS and drive positive change in the meme industry.

GOVERNANCE &
SUSTAINABILITY   11

11 - GOVERNANCE & SUSTAINABILITY

At $SANS, we believe in the principles of transparency, decentralization, and community governance. We are committed to creating a sustainable ecosystem that empowers the community to actively participate in the decision-making process.

To achieve this, we have implemented a governance model that allows community members to have a say in important matters related to the development and evolution of $SANS. Through the $SANS DAO (Decentralized Autonomous Organization), community members can propose and vote on key decisions, such as feature enhancements, ecosystem upgrades, and resource allocation. This ensures that decisions are made collectively, reflecting the interests and aspirations of our community.

The $SANS DAO operates on a decentralized network, utilizing blockchain technology to enable transparent and auditable governance. It fosters a sense of ownership and responsibility among community members, as they actively contribute to shaping the future of $SANS.

Furthermore, we are dedicated to the long-term sustainability of the project. We prioritize responsible practices that consider the environmental impact of our operations and strive to minimize our carbon footprint.
